The March 2023 meeting was held on Thursday March 2, 2023 with seven members present.

Trail Report: We were finally able to re-open most trails last Saturday, February 25<sup>th</sup>. The fields and seasonal roads are good. The woods trails are thin with hazards of open water, rocks and stumps. Be very careful riding. Grooming is ongoing as snow conditions allow. If it gets above freezing, the drags cannot work the snow. The snow Monday and Tuesday helped and the forecast is calling for more snow this Friday night and Saturday. C4H from the Mad Tom/Nobelboro Junction to South Lake was opened up today. Conditions are early season, so be very cautious. Trackside does not have the trail open from North Lake to Forestport, so you would be dead ending at South Lake. The following trail is still closed: C4 from the C4C (Mosquito Hill junction) to Jerseyfield and Salisbury. Be very cautious on C4B along the power lines on the southern end of Snyder Road. The tree trimming crew for National Grid left deep ruts under the electric lines which are now frozen. You can detour around by riding the side of Snyder Road. They will be filled in as soon as we receive enough snow. For the latest grooming information and conditions, please follow our Facebook page at:

<https://www.facebook.com/OhioRidgeRiders>

As we all know, this has been a disappointing year for riding. Hopefully the snow will stick around and temperatures will remain low enough to groom. Please support the local business when you do get out. They are all feeling the effects of the bad winter as well.

We plan to have large raffle tickets available by next months meeting. These sold out prior to Snow Bash the last two years, so plan to get your's early.

These are a couple of pictures taken last Saturday night after we were able to re-open the trails:

The next meeting will be Thursday April 6, 2023 at the Ohio Recreation Hall at 140 Nellis Road at 6:30 PM.
